Mobile: 086-8353644

Fermoy Woodland Nurseries Ltd.

Planting Tips!

1. Measure the lenth of the piece of ground.
2. Plant hedging at between one and two feet 30-60cm spacing depending on the size of plant used.
3. Plant bare root plants between November and the end March
4. Remove grass and weed. They will compete with the hedge.
5. Dig a small trench about 20-25cm deep. Mound the soil up if drainage is a problem.
6. Firm in the plants well to avoid wind rock. Go back regularly to check this.
7. Planting whitethorn 6 plants per metre in a double row is recommended. Trim back spindly top growth to encourage basal growth.
8. Watering new plantings may be required during the first season, particularly if planting late (March) and especially Beech.

TERMS AND CONDITIONS

Prices quoted are ex nursery & subject to variation without notice.
All goods remain the property of Fermoy Woodland Nurseries Ltd. until payment has been received in full.

If you have any problem with your plants please notify the nursery within 3 days of collecting your plants.
